MIDDLE-AGED MEN.
There are many at the age of thirty and sixty who are troubled with too frequent evacuations of the bladder, often accompanied by a slight smarting or burning sensation and a weakening of the system in a manner the patient cannot account for. On examining the urinary deposits aropy sediment will often be found, and some small particles of albumen will appear, or the color will be of a thin milky hue, again changing to a dark and torpid appearance. There are many men who die of this difficulty ignorant of the cause, which is the second stage of seminal weakness. Dr. S. will guarantee a perfect cure for Chevreauan, Silver Lake, Summer Lake, Prineville and the Dalles, also with stages for Drew's Valley, Linkville, Sprague River and Ashland.
Particular attention paid to express packages on the regular line and to Alturas. Stages leave Reno daily (Sundays excepted) at 7 a. m. Schedule time each way, 36 hours.

NEW RULES.

The first proposed rule in the Senate, reads as follows: First, In the absence of the Vice President, the Senate will choose a President pro tempore. Second, In the absence of the Vice President, and pending the election of a President, pro tempore, the Secretary of the Senate, or in his absence, the Chief Clerk will perform the duties of the Chair. Third, The President pro tem. shall have the right to name an officer of the Senate or if absent, in writing. The Senator performing the duties of the Chair, and the Senator designated, may discharge such duties for a period not exceeding three days, unless the Senate otherwise orders.

Bayard asked the Senators to contemplate the effect of the proposed rule which gave the Vice President the right to designate a person who, by a possibility, may become acting President of the United States.

EDITORIAL NOTES.

Rev. Heber Newton, an Episcopal clergyman of New York, comes forth with a lecture on the authenticity of the various books of Scripture, and says outright that Moses was not and could not have been author of the Pentateuch. Our Saviors, according to the Gospel, of a different opinion. A late dispatch from New York mentions that the reporter of the *Tribune* found Monsignor Capel in a 10 per day room of the Brunswick, overlooking Fifth avenue, and writing a lecture on the "Poverty of Jesus." Things have evidently changed since Jesus' time, as we can hardly imagine any special apostle as boarding at the Brunswick, or preaching to a congregation of neophytes that the Savior did not know what he talked of, when he referred to Moses and the Prophets.

It is doubtful if any section of the world is more heavily and uniformly mineralized over so large a region as Western Nevada. It is wonderful to see the extent of country where big assays can be found. Of course, much of it is rebellious ore, but if it was in Germany or Vermont, it would be worked at immense profit. The indications are that before another year there will be a great revival in interest in this country. An enthusiast said this morning, that there would be 2,000 men prospecting in the mountains of Washoe county before another year. We give the theory of the Carson *Index*, on the formation of the south end of our country, in another column.

Senator Blair has given notice of a constitutional amendment prohibiting the manufacture and sale of spirits and other intoxicating liquor; except for medicinal purposes or for use in arts and manufactures. Falling ratification, it is to become operative by act of Congress ten years hence. The discussion of this project will waste time which should be devoted to the consideration of more important measures.

In both Houses of the Virginia Legislature a joint resolution was introduced by Democratic members declaring that the people of Virginia accepted the act of February, 1862, known as the Riddinger bill as the ultimate settlement of the debt of that State.

The Board of Police Commissioners this afternoon declared St. Louis to be the worst policed city in the Union.

Blaine's scheme for dividing surplus revenues among the States fell rather flat.

EASTERN DISPATCHES.

(PRESS DISPATCHES TO THE GAZETTE)

The Freight Contract.

CHICAGO, December 14.

S. H. H. Clark says the alliance need not disturb the Iowa pool. "It is," said Mr. Clark, "a defensive and offensive alliance, the terms of which in brief are: it makes a terminus of the Union Pacific at Chicago instead of Omaha for competitive business. The compact is not discriminating in any sense. It does not speak of the local business of the Union Pacific road and it is open for any of the Iowa lines to sign it. It is the necessary outcome of roads building into the territory of the Union Pacific. Lines which had simply been feeders of the Union Pacific were now its rivals at various points along the line as far west as Denver.

These rivals, which formerly had their termini at Chicago and Omaha, now had their western terminus at points beyond Omaha, while the Union Pacific, on the other hand, had its eastern terminus at Omaha, until, by signing the present agreement, it was placed on even terms with its competitors, and had, to all intents and purposes, a direct line to Chicago. The compact provides that in the event of a break in the established freight rates at any competitive point on the Union Pacific, commencing at Salt Lake and Ogden on east-bound business, its confederates will bear their pro rata of the cut from Omaha east. Passenger traffic is only mentioned incidentally in the agreement.

Mackay's Wires.

NEW YORK, December 14.

The *Herald* publishes the certificate of the Associated Commercial Cable, heretofore referred to as Mackay's Cable Company, incorporated under the general act. The general route and points to be covered, are from New York, by one or more routes, to a point on or near Cape Ann, and thence through the New England States and Canada, and through such said countries as it found convenient for said lines, to a point at or near Dover Bay, N. B., and also by a direct line from New York to Canada and to Dover Bay aforesaid, and in both cases they connect with one or more submarine cables, to connect with England, France, Belgium and Spain, and any islands of the Atlantic Ocean. Also a line to Paris, also line or lines from New York to one or more points in Mexico, by another line to one or more points in California and Oregon; to Japan, China, Australia and intermediate stations. It is divided into 60,000 shares of the par value of \$100. The stock is held by John W. Mackay, 20,000 shares; Isaac Bell, Jr., 10,000; Hector Decastro, 5,000; and David Davidson, 5,000.

Murder and Rape.

RICHMOND, Me., December 14.

Lewis E. Hopkins (Slim Jim) and Ben Turner, while on a spree last night, killed Old Joe an Indian, and then assaulted his wife. They burst in the door, seized Old Joe's wife, threw her on a bed, and she was ravished by Turner, while Hopkins attacked Old Joe who tried to defend his wife's honor. Hopkins struck the Indian, knocking him down and jumped on his head, sinking the nails of his heavy boots deep into the Indian's face. Hopkins then ravished the woman.

Announcement of Speakers.—Democratic Caucus Officers.

WASHINGTON, December 14.

The House Committee on Rules announced the following Speakers: Blackburn, Randal, Keifer and Reed. The Democratic members of the House held a caucus Monday evening to elect caucus officers. The question of the policy in party matters will not be considered at present, because a large number of Congressmen have gone home for the holidays. A caucus for this purpose will be held immediately after the holidays. The House adjourned until Monday.

Indian Justice.

FORT SMITH, December 14.

Levi James, a Choctaw Indian, was shot yesterday at the Scullyville Court-House. In accordance with Choctaw usage, James sat upon a blanket, while the Sheriff held one hand and his deputy another; another deputy took position five paces distant, and, with a Colt's revolver, deliberately aimed and shot him through the heart.

Out Again.

NEW HAVEN, December 14.

The members of the Salvation Army are discharged from arrest. The Judge said to the leader of the band that he did not believe they would be interfered with in singing, praying and exhorting from the steps of the old State House, but they must not parade the streets beating drums.

Cured By Vigilantes.

YANKEES, Dec., December 14.

Vigilantes in Niobrara valley have got away with five horses and cattle thieves within 10 days. Wade, Murphy, and Weatherwax were hung; White, Hoyt and old man Weatherwax were shot; Culbertson, Stewart, Morris and Kline are in custody.

FOREIGN DISPATCHES.

Loss of Two Vessels.

LONDON, December 14.

Success of the American Missionaries, etc.

LONDON, December 14.

The mission of Moody and Sankey at St. Perry has been a wonderful success. John Bright, in a speech at Oakworth last night, referred to the extension of county franchise as one of the greatest measures to be dealt with at the next session of Parliament.

O'Donnell's Case.

LONDON, December 14.

The hangman has arrived to make preparations for the execution of O'Donnell. The American Minister says he is not free to discuss the steps taken to obtain a respite. He is hampered in approaching the British Government by the result of the Lawson case.

The German Crown Prince has arrived. He was received at the depot with military honors.

Pope Leo and the Crown Prince.

ROME, December 14.

The Pope is consulting with the cardinals concerning the visit of the Crown Prince of Germany.

WESTERN DISPATCHES.

(PRESS DISPATCHES TO THE GAZETTE)

Receiving Threatening Letters.

TOMBSTONE, December 14.

During the past two days, Williams, Goldwater, Lowenberg and other prominent citizens of Bisbee have received threatening letters. They are all addressed in a scrawling hand, and are evidently written by the same person. The following is a copy: "Keep your mouth shut or you will get shot." One of them, Supt. Ben Williams, offered a reward of \$1,000 for information that would lead to the detection of the one sending.

O'Donnell's Friends.

SAN FRANCISCO, December 14.

The Irish National Land League of this city is doing all it can to save the life of O'Donnell. Judge Cooney yesterday received a telegram from United States Senator John F. Miller, stating: "I have seen the President, and everything is being done for O'Donnell that can be done."

MISCELLANEOUS.

An Old Soldier's EXPERIENCE.

"Calvert, Texas, May 3, 1882.

"I wish to express my appreciation of the valuable qualities of

Ayer's Cherry Pectoral

as a cough remedy.

"While with Churchill's army, just before the battle of Vicksburg, I contracted a severe cold, which terminated in a dangerous cough. I found no relief till on our march we came to a country store, where, on asking for some remedy, I was urged to try AYER'S CHERRY PECTORAL.

"I did so, and was rapidly cured. Since then I have kept the PECTORAL constantly by me, for family use, and I have found it to be an invaluable remedy for throat and lung diseases.

J. W. WHITLEY."

Thousands of testimonials certify to the prompt cure of all bronchial and lung affections, by the use of AYER'S CHERRY PECTORAL. Being very palatable, the youngest children take it readily.

A letter addressed to Lindley & Co., Sacramento, is held for postage in the Virginia postoffice.

A new line of autographic albums at Nasby's, 27 Commercial Row. Thermometer at 7, 9, 11, 1, 3-15, 23, 32, 40, 44.

It is reported that a well-known young lady in Bodie is about to come into the possession of a large amount of property. Just see what it is to live in Bodie.

Solid buyers, families in town, and ranchers, seem to patronize J. K. Everett, and they can find no better place for groceries, general merchandise, prompt attention to orders and cheap prices.

If you don't yourself need anything that Levy Bros. sell, your wife certainly does, and she probably knows, as many ladies do, how excellent their goods are, and at what cheap prices they sell them.

A party of young men have organized a "sock and necktie" club for the promotion of temperance, and when one of them is asked to take something, he says: "Well, yes—guess I'll take a pair of socks or a necktie."

Holesworth & Palmer have a full orchestra band for their entertainment at Kimball Hall, and are sparing no expense to render the evening passed there, one to be remembered. They mean to make it one of the institutions of Reno.

The holiday goods of John F. Myers are among the best and most abundant brought for many years to Reno by any apothecary. To give a list of them in a job would be impossible. Go there yourself and he will show them with pleasure.

The old house is that of Chase & Thyes, but it has other claims to patronage than mere antiquity. It furnishes the best concocted mixed drinks that can be found anywhere, and has all the conveniences of the best San Francisco saloons. Their rooms are always full.

For boots, shoes, hats, caps, slippers, shoe-furnishing goods and everything expected where these are sold, go to John Sunderland, who is at the head of his business, having made himself so by selling nothing but good articles and selling them cheap.

Wm. Goeggele offers watches in every variety, chains (guard and fob) to suit any taste—jewelry and silverware in every style, and all at cheap rates. But he especially invites attention to his extensive supply of the more tasteful holiday goods in his line, and invites you to call and examine.

Wines, liquors and general merchandise are, of course, to be had of Lindley & Co., but their pure Thistle Dew whiskey, of which they are sole importers, is the article to which special attention is called. It is highly recommended and deserves the praise it gets. All their goods are cheap.

The names of Becker and beer are synonymous almost everywhere. Almost every Becker keeps a beer saloon, but J. J. Becker has reduced the thing to a science, especially in the matter of lunches. Those spread at his saloon are so attractive as to draw half the business, and all the legal and medical population to his house daily.

Have you been at Geo. Beckers? Oh! then you need not be told that his wines, gins, rums, whiskies, brandies, and beer are of first quality; that his saloon is thoroughly kept; that his lunches are exquisite and abundant, and finally his beer is unsurpassable. If you have not paid him a visit, you are now told this is all true.

PERSONALS.

Charley Lewis is up from Wadsworth.

Mr. and Mrs. M. C. Lake returned from the Bay this morning.

Theodore Winters was a passenger for Sacramento this morning.

Brook, of the extensive cattle firm of Hays, Carriek & Co., arrived this morning from the West.

Quong Men Yuen, the prominent Reno merchant, left this morning for China. He will be away about seven months.

Adrian Ellis, Will Davis and Ed. Mason, Carson boys, came up from below from school this morning, to spend the holidays at home.

Detective Burke has been in Verdi for a day or two past, looking after lost railroad ties. He found them and returned below this morning.

R. F. Pixley went below this morning. He thinks the prospects are brighter now for the Comstock than at any time during the past five years.

Mrs. Governor Kinkaid is in Washington, and by invitation of Congressman Cassidy, was present at the organization of the House of Representatives.

Horace Smith, formerly a very prominent and popular sporting man on the Comstock, went west this morning. He is very much broken in health and but a shadow of his former self.

A GOOD GUESS.

The Country North of Mount Davidson and the Suto Tunnel.

There is no doubt that in the country west of Mount Davidson and between that point and almost to Washoe City, there is a vast mineral region that in the course of time will develop into a splendid system of mines. A recent tour over the hills enables the writer to state that so far as his personal experience and observation extend, there can be no better indications of vast mineral wealth than are visible in the region alluded to. Our belief is that not only is the matrix of the precious metals perfectly vast, but that in variety of product it will be almost unparalleled. As a primary idea, we are impressed that were the Suto Tunnel extended westwardly from its present terminus some three or four miles, it would penetrate a very wonderful country. In fact we are converted to the idea that Mount Davidson itself is but a monstrous upheaval in the midst of an immense mineral formation which is just as extensive and valuable west of that prominent peak as eastwardly. Were the tunnel projected toward the Sierras, it would be found to be 300 or 400 feet below the level of Washoe Valley. The drainage thus obtained would be quite ample. To recur to the surface appearance of the region alluded to, it will appear to the careful observer that the entire surface and rock formations indicate extensive and varied deposits. The color of the soil itself, as well as the quartz formations which are almost everywhere encountered indicate rather

ONE VAST LEDGE.

Or formation of mineral bearing rock, with more or less porphyritic seams, than any mere series of quartz veins. To be sure, it is now supposed that the country is seamed with numerous and rather moderate ledges; but more narrow examination indicates that a vast matrix of quartz, bearing lead, graphite, antimony, iron, gold, silver and many other metals, lies deep in the earth and finds only irregular and imperfect development at the surface. The depth at which the Suto tunnel would cut this deposit would speedily prove its real nature and value. Our recent exploration of that tract of country was induced by the operations which have been carried on for the last year or two at the so-called Harris mine, about three miles east of Washoe City. We found an extensive system of shafts, tunnels, inclines and winzes, having their point of initiation at the brow of a minor eminence, where it is supposed by very many that an east and west gold ledge cuts through a north and south silver ledge. The surface indications, as well as the underground indications, give plausibility to this theory, but our view is that the Harris mine is only at a more than usually promising point in the midst of a vast quartz formation which is not even limited by Mount Davidson, some four miles to the eastward. The system upon which this mine is located seems to extend northwardly, and increase in positive outline and concentration to a point east of the old Temelec mill, at the lower end of Pleasant valley. Southwardly the system of mines and quartz to which we refer, would seem to be lost under the level surface of Washoe valley. This latter fact, however, seems to be of but little consequence. The North Carson mine might be deemed to be the continuation of that same formation. Northwardly the same mineral colorations are visible in the low mountain at no great distance from the Temelec mill, and again, in the same line of vision, almost directly

NORTH OF RENO.

A system so extensive as this merits attention. We find that in the hills east of Washoe there are numerous prospectors and many locations of mines. The ground is exceedingly favorable for operations. Water can be readily obtained from the Virginia Water Company's flumes and pipes, while the railroad can supply Washoe City with all needed supplies for the mines. Washoe City and Virginia City people are greatly interested in the new investigation of the old Argentine District. In fact, the present operations are but a renewal of explorations which took place in those localities years ago, and which failed only through the demand for quartz fully as rich as that which was realized from the Comstock. A judicious and generous expenditure of capital would doubtless bring to an infinitely more vast deposit of reasonably rich ore, than is now supposed to be in the upper levels of the Comstock. Locations and sales of mining ground are constantly going on. The outlook is a promising one, and we are glad to observe that those who are trying to develop the country are very economical, judicious and successful. We hope very soon to hear of important and rich developments.

Teaming not yet Ended.

The fine weather makes teaming still good, and a number of teams are reported on the way from Surprise, Goose and Honey Lakes. From Goose Lake two teams arrived at Lee's stables yesterday, whose drivers report roads good, weather fearfully cold at night and ranchers and business men satisfied with present times and future prospects.

A Good Wife's Trials.

The wife had made up a large batch of bread and had placed it near the sitting-room stove to rise. Her husband came in shortly with eight or ten scoopers of beer aboard, and seating himself near the stove, cocked his feet up on the moulding of the wainscoting. Dropping off into a quiet little snooze, he dreamed that his wife was choking, and jumped to her assistance, coming down with both feet slap into the dough. "What in the name of common sense are you doing, up to your knees in my bread?" she angrily asked. "I didn't mean to; I thought you was chokin'; I dreamed that you had swallowed a hair pin," replied the poor man. "Oh! you brute; if you would swallow hair pins instead of beer, it would save me a great deal of trouble. Now, look at that bread; it's nothing but work, work, work, from morning till night, and I—," was the last he heard, as he slipped out into the moonlit alley, tracking dough from the sitting-room to the back gate.

Another Find.

The Enterprise says: "Renolites are coming across the river and prospecting in the old Red Mountain District, north of Virginia. The first we know they will find the north extension of the Gomstock." James Burke has been prospecting in that district for some time, and a day or two ago he was rewarded for his patient toil. He discovered a ledge three miles north of Virginia, from which he has had 12 assays made, one of which went \$1,206, another over \$1,100 and the lowest \$12.87. It goes to show that the mountains in this section have not yet been half prospected.

Skating on the Reservoir.

Last afternoon and evening large numbers of persons enjoyed the delightful and rarely possible exercise of skating on the smooth surface of the Water Company's reservoir. On the Terrace, the exercise can usually be had in the bands, within a small place, neither is the ice usually smooth. Compared with real skating, roller skating is a sham. Try the genuine article, for unless all indications fail, the present freezing nights are likely to continue.

Card of Thanks.

I desire to return sincere thanks to all the kind friends who took part and assisted in making a success of the entertainment given in behalf of the Reno Methodist Sunday-school. To General Powning, for his generous gift (\$25) a special mention is due, and in behalf of the Methodist Sunday-school, to whose benefit it was donated, I return him and others my sincere thanks. F. McRAE.

A Full House.

The enterprising firm of Abrahams Bros. of the White House have now on hand an immense Fall and Winter stock, to say nothing of their supply of every kind of holiday goods that are suited to their business. As to their prices, they cannot be sufficiently commended. It seems incredible that they can sell so cheaply and run so large a business. But they do it.

The Peavine Outlook.

Captain Griffin informs the GAZETTE that the Golden Fleece, which, owing to a break in the tunnel, was obliged to run around it for a considerable distance, has now such prospects as to render the stockholders very sanguine, and he himself, not a very enthusiastic or exaggerative person, feels sure that Peavine will turn out one of the finest mining districts in the State.

From Bidwell and the North.

Passengers from Bidwell by stage report the weather clear but excessively cold, especially during the nights. They also report overtaking numerous bands of sheep and cattle on their way to Reno for shipment. The Fort sends down a soldier occasionally on "detached service." Such soldiers are on their way to headquarters, at the Presidio of San Francisco.

Out Collecting.

Last Spring M. J. Curtis of Reno took a contract from the Board to repair the bridge over the Humboldt at Mill City for \$475. His work is done, and he is having some trouble about getting his pay. Mr. Giroux says the work was not done according to contract. A committee decided the work well done, and it will be paid.

Injunction Dissolved.

In the Ormsby county District Court Judge Edwards dissolved the attachment previously granted in the lower court, in the case of J. C. Hampton vs. Steamboat Springs Irrigating Canal Company. The case was sent to Washoe county for trial.

Owners of Fast Trotters.

NEW YORK.—Messrs Gordon & Chase, proprietors of the well-known Phoenix Stables, state that in their 40 years experience, they have found nothing that can compare with St. Jacobs Oil as a cure.

A Cheerful Prospect.

The Enterprise says: Ophir is still on the boom. A Comstocker yesterday offered to bet that the stock would sell for \$20 per share before New Year's day.

A Thorny Rose.

Sarah Althea Hill-Sharon is a female Tartar. She was in Judge Tyler's office in San Francisco on Saturday afternoon, when General Barnes entered to consult with that attorney in reference to the case. She turned on the visitor, screaming out: "General Barnes you have a son whom you love; I hope you will live to stand at the foot of the gallows and see him hang!" Tyler tried to quiet her, and she black-guarded him, and then treated W. M. Nelson to a bit of her tongue. Not much the Rose of Sharon, and excessively unlike the Lily of the Valley.
